### BIO

Stephania Bello is a Venezuelan, New York City based multidisciplinary artist. Working in a variety of mediums from film, digital arts, ceramics, writing, acting, painting, to mycelium furniture design. Truly an auto-didact, Bello lets her curiosity guide her towards new mediums. Drawing inspiration from her connection to nature, most of her works have a common thread, they explore the unending cycles of growth, decay, and rebirth. Reconnecting with her ancestral lineage, Bello embraces diverse mediums that resonate with her sense of home. Rejecting the trend of conforming for success, she draws from nature's wisdom, remaining steadfast and boundless in her artistic journey.
